IDEAS

SCRIP-J is a passionate team of printing experts. We work round the clock to provide our clients with products that aren't just a source of success – they're a source of pride.

Our Mission

SCRIP-J exists to help businesses promote their business better.

Our Vision

To be the Region's most trusted supplier, offering timely and effective solutions to their diverse business needs.

Our Values

InSTEP

Integrity: We believe integrity manifests reliability, builds trust and confidence, and sustains mutually-beneficial, long-term relationships.

Service: Excellence: We believe excellent service clearly differentiates us and earns us repeat business.

Teamwork: We believe that we accomplish more, better and faster working together as a team.

Employee Development & Welfare: We believe happy employees lead to happy customers, so we provide a structure that supports the development of their capabilities and the enhancement of their well being.

Professionalism: We believe that our work ethics, discipline and comportsment provide the critical foundation that ensures consistent quality in everything that we do and establishes us as leaders.

It has been said that quality is not an act, rather it is a habit. At SCRIP-J, that's what we believe. We don't just provide quality, we live it, through every project we undertake. Our successful evolution is the direct result of our constant focus on improvement and the latest in technological advances. Now, backed by over three decades of dedicated experience and a team of highly-trained staff, we have grown from a printing producer to your most reliable provider for all your promotional and packaging solution requirements!

Our multiple solutions, from our custom-print products to our innovative display options will help you take your business to a wider audience, build brand awareness and give you that extra edge to put you a cut above the rest in any arena!

Whatever the project, we can and will provide the solutions exactly as you need them, because for us success means helping you do your business better!

- ▶ Foil stamping is a specialty printing process that uses heat, pressure, metal dies and foil film. Once the text or die was assembled, it was loaded into a press, which then pressed thin sheets of metallic foil into a book cover or other material.

Hot foiling, or hot stamping, is used for the decoration of a wide range of products. It is widely used in the finishing of packaging products such as food, medicine, beverages, books, as well as high-end luxury products.
